Below is your Scripture and instructions for your project:

1. **Take your Scripture listed below and use the 7 arrows to write your paper. Writing a paragraph or more for each arrow.**
2. **The first arrow should include reading your scripture in context and writing a summary of what it is saying at face value.**
3. **The second arrow will require some research. Use the Bible study tools listed in the book to give background information to your Scripture. This information should include (but not limited to):**

    a. **The year your assigned Scripture was written.**
    b. **Who wrote your assigned Scripture.**
    c. **Who was the original audience of your assigned Scripture.**
    d. **Anything significant about where the original audience lived that would be relevant to a deeper understanding of your assigned Scripture.**

4. **The third arrow might require use of a commentary. This arrow seeks to answer the question,**
   "What does your assigned Scripture tell you about God." Use the characteristics of God listed in
   the book to compare to the Scripture and see if they are emphasized in your assigned Scripture.

5. **The fourth arrow is what does your assigned Scripture say about people (mankind). A commentary can help with this, or even simple observation on your part could help you see elements that were described in your reading.**

6. **The fifth arrow ask what does your assigned Scripture demand of you! This is all about personal application. How should your life adjust because of the directions given in your assigned Scripture.**

7. **The sixth arrow ask how does your assigned Scripture teach you to treat of relate to people.**
   Again, a commentary may help with this along with you taking the time to think and pray
   about the Scripture you just read.

8. **The seventh arrow asks about prayer. This is important, write a prayer as your final paragraph inspired and directed by your assigned Scripture.**

My assigned scripture is (Galatians 5:16-26)
